

ENVIRONMENTAL POLICY

The success of United Metal Coating L.L.C depends on the ability to continually improve the quality of our services while protecting the environment around us. This commitment is in the best interests of us to our customers, our employees, our suppliers, and the communities in which we live and work ensuring environmental protection.

Our Commitment:

- ✓ To establish, maintain and work on regular reviews for continuous improvement of our EMS in order to protect the natural habitat around us and comply with the legal environmental standards.
- ✓ To continuously improve and minimize the burden on the environment from our office and Factory operations by
 - minimizing landfill waste by initiating reusage and recycling;
 - implementation of sustainable raw-material procurement and Net-Zero Factory model;
 - committing for international green building certifications on Net-Zero Carbon emission;
 - implementation of renewable energy and energy efficient operation;
 - capture 98% of the toxic VOC emission during the coil coating process;
 - minimize hazardous stack emissions in creating pollution free environment.
- ✓ Documenting, implementing, maintaining and meeting the EMS requirements as per the ISO 14001:2015 standards and other local regulatory body objectives.
- ✓ Implement environmentally friendly manufacturing process in order to produce sustainable and environmentally friendly products usable at various indoor and outdoor conditions.
- ✓ Set annual environmental objectives and work towards continuous improvement on the manufacturing process and product quality with equal involvement in community service events.
- ✓ To publically communicate with customers, suppliers and other stakeholders, our commitment, achievement and bold steps taken in creating a Sustainable Manufacturing Process.
